

Symposium “The Secrets of Chromatin”

12/13.09.2018

12.09.2018

15:00	Registration
15:45	Welcome
16:00	Laudatio
16:15	Keynote Lecture Sixty colours of chromatin, and more to come <i>Genevieve Almouzni</i>
17:15	End

13.09.2018

9:30	Dynamic chromatin association of transcription factors and chromatin remodeling enzymes at single-molecule resolution in living yeast <i>Carl Wu</i>
<i>Intermezzo</i>	<i>Gernot Längst</i>
10:30	The enigma of H3K4 methylation <i>Francis Stewart</i>
<i>Intermezzo</i>	<i>Philipp Korber</i>
11:30	Lunch
13:00	Microbiome-intestinal epithelium crosstalk via chromatin dynamics <i>Patrick Varga-Weisz</i>
<i>Intermezzo</i>	<i>Felix Müller-Planitz</i>
14:00	Regulatory architecture and logic of chromatin remodelers, and alterations by tumor-associated missense mutations <i>Cedric Clapier</i>
<i>Intermezzo</i>	<i>Axel Imhof</i>
15:30	Coffee Break
16:00	Histones: How much variation do we need? <i>Sandra Hake</i>
<i>Intermezzo</i>	<i>Alex Brehm</i>
17:00	Alumni Choir
17:30	BBQ
