

Minisymposium: „Chromatin Dynamics and beyond“

October 20, 2023, 9-13 h

Biomedical Center Munich, Small Lecture Hall

- 09.00** **Andreas Ladurner, BMC**
Welcome
- 09.10** **Maria Felicia Basilicata, IMB Mainz**
"Wired for Complexity: Integrating Chromatin, Metabolism,
and Sex in Neurodevelopment"
- 09.40** **Arnaud Krebs, EMBL Heidelberg**
"Single molecule genomics to study cooperativity and
antagonism in transcription regulation"
- 10.10** **Kyung-Min Noh, EMBL Heidelberg**
"Genome-wide functional dissection of key histone
residues and disease-associated chromatin regulators"
- 10.40** **BREAK**
- 11.00** **Srinivasan Rengachari, MPI Göttingen**
"Regulation of RNA Polymerase II Transcription"
- 11.30** **Christian Schmidl, LIT Regensburg**
"Dissecting T cell (dys-) function using single-cell chromatin mapping"
- 12.00** **Sonja Woermann, MD Anderson Cancer Center Houston**
"Role of Cytidine Deaminases in Cancer"

All interested are welcome!
